

**EURO<sup>2</sup>**

**NCC Poland - services and  
achievements**

# The Polish National Competence Centre in HPC

The Polish National Competence Centre in HPC includes the resources of six Polish computing centres in the first phase of the project and five in the second phase:

- **CI TASK** – Centre of Informatics – Tricity Academic Supercomputer & Network
- **Cyfronet** – Academic Computer Centre Cyfronet AGH – project leader
- **ICM** – Interdisciplinary Centre for Mathematical and Computational Modelling  
UW (supporting partner)
- **NCBJ** – National Centre for Nuclear Research
- **PCSS** – Poznan Supercomputing and Networking Center
- **WCSS** – Wrocław Centre for Networking and Supercomputing

# The Polish NCC Team

- WPL: Marek Magrys
- deputy WPL: Marta Maj
- Task Leaders:
  - Training and Skills Development - Cyfronet
  - Services to and Interaction with Industry - PSNC
  - Services to and Interaction with Academia and Public Administration - Cyfronet
  - Service Portfolio and Competence Management, Additional Services - NCBJ
  - Collaboration - CI TASK
  - Awareness Creation and Communication - WCSS

# The Polish National Competence Centre in HPC

- A centre of expertise and a point of contact that enables users to benefit from the national and European computing infrastructure
- For business entities (especially SMEs), universities, research institutes, public administration
- Expertise in all areas of HPC+ (HPC, HPDA, AI, Big Data, Data Analytics)
- Services:
  - Access to computing resources
  - PoC
  - Technological support and consultations
  - Training
  - Support in applying for access to European resources
  - Commercial services: training, access to computing resources

Tryton  
1.41 PFlops

L U M I

LUMI  
550 PFlops

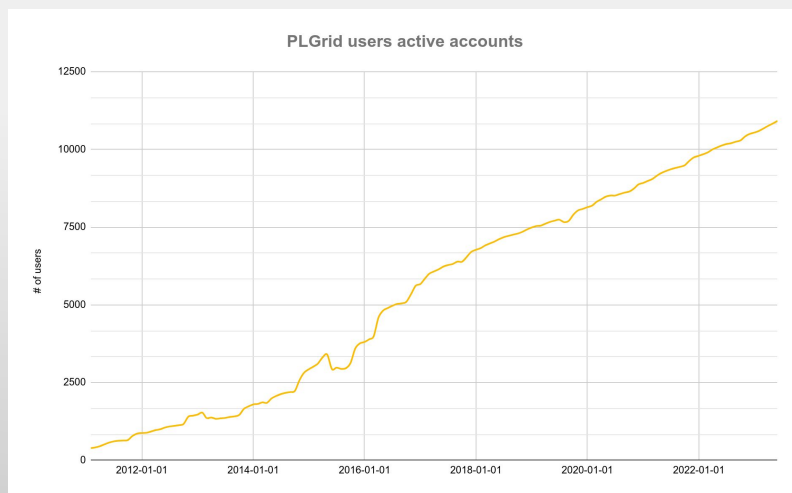

# PLGrid Portal Tools

- IdP service
- User portal
- Resource allocation platform
- User support

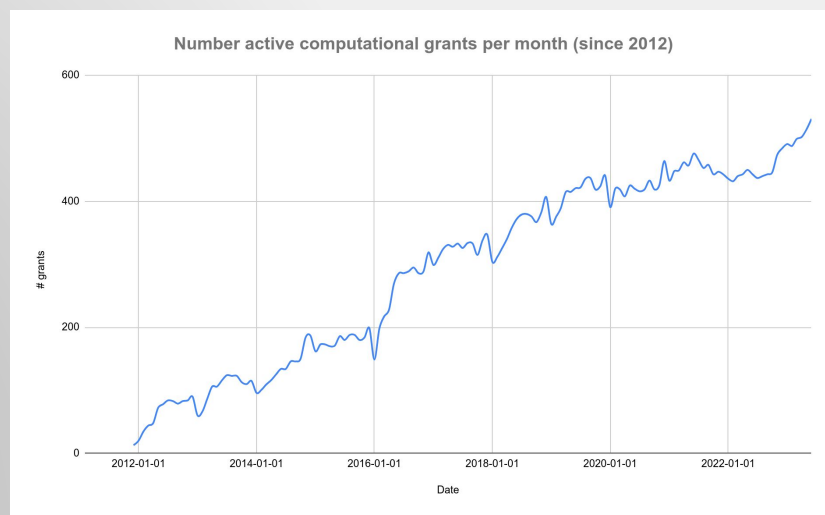

# PLGrid Portal statistics

- > 11 k Active users
- > 80 Universities
- > 30 PAS Members and Institutes

- > 4 k Completed Computational Grants
- > 4 k Publications

# The Polish National Competence Centre in HPC - Planned activities

- Organization of national user forum
- Door 2 Door with SME
- Market research for HPC/HPDA/AI needs in Poland target group SME and public
- Cooperation with EDIHs and other institutions
- Closer cooperation with national trade associations

# The Polish National Competence Centre in HPC - Planned activities

EURO<sup>2</sup>

- Common service catalogue for HPC services
- Training for existing and new coming users
- Series of short movies about NCC (What is NCC, what is HPC, services for business, academia, public entities)
- Articles in trade press and trade portals
- Social media campaigns
- New use cases

# NCC Events

- International:
  - HPC Summit (Goteborg, Sweden)
  - ISC High Performance (Hamburg, Germany)
  - ASHPC (Maribor, Slovenia)
- National:
  - KUKDM (Zakopane)
  - Internet Governance Forum (Wroclaw)
  - CLARIN-PL (Wroclaw)
  - Symkom (Warsaw)

# NCC Training in 2023

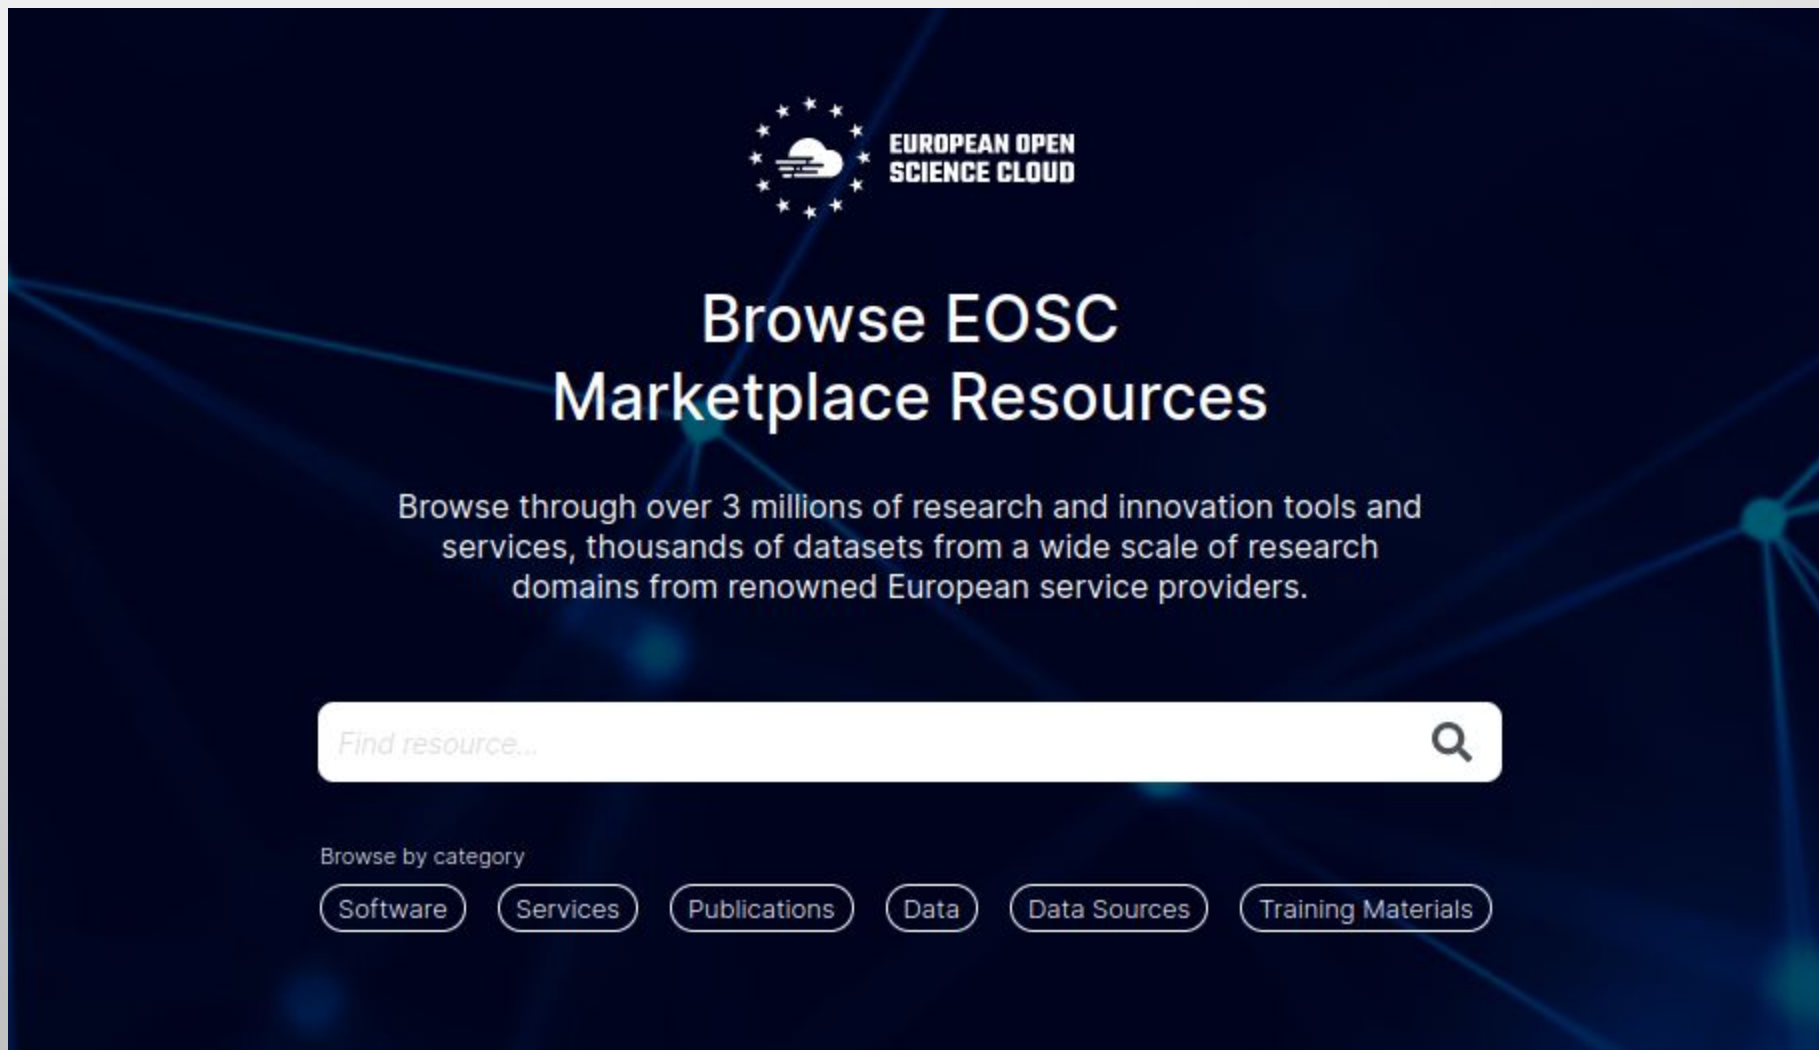

- Introduction to the EuroHPC computing infrastructure
- Introduction to the command line of Linux systems and the Bash shell
- High-performance scientific computing in C++
- Introduction to scientific High-Performance Computing
- Efficient usage of HPC systems in scientific computing
- Lumi Day Poland 2023
- Vector computing on the NEC SX-Aurora Tsubasa platform
- GNU/Linux system: Bash shell, utility programs
- Cyfronet AI for Science Bootcamp
- Introduction to MPI programming
- Comprehensive general LUMI course
- Cyfronet - Intel oneAPI workshop
- Hackathon: Optimizing for AMD GPUs

# EuroCC2 current cooperations

- Central European Working Group (dissemination and communication, industry cooperation, training)
- NCC Slovakia (training)
- LUMI partners (training)
- NCC Lithuania and NCC Spain (Sustainable Development Goals in HPC)
- Task forces:
  - LinkHPC platform - test of the French Marketplace solution
  - new Competence Map task force

# Marketplace

The screenshot shows the homepage of the European Open Science Cloud (EOSC) Marketplace Resources. At the top center is the EOSC logo, which consists of a circle of stars surrounding a stylized cloud and sun icon, with the text "EUROPEAN OPEN SCIENCE CLOUD" to its right. Below the logo, the main heading "Browse EOSC Marketplace Resources" is displayed in a large, white, sans-serif font. Underneath the heading, a paragraph of text reads: "Browse through over 3 millions of research and innovation tools and services, thousands of datasets from a wide scale of research domains from renowned European service providers." A prominent white search bar with the placeholder text "Find resource..." and a magnifying glass icon is positioned below the text. At the bottom of the page, under the heading "Browse by category", there are six rounded rectangular buttons: "Software", "Services", "Publications", "Data", "Data Sources", and "Training Materials". The background of the page is dark blue with a network-like pattern of glowing nodes and connecting lines.

EUROPEAN OPEN SCIENCE CLOUD

## Browse EOSC Marketplace Resources

Browse through over 3 millions of research and innovation tools and services, thousands of datasets from a wide scale of research domains from renowned European service providers.
